DYED THE WATERS  
OF THE DANUBE

Red with Blood, Say Victorious Bulgarians, of the Slaughtered Rumanians

(Associated Press)

Sofia, Oct. 5.—Bulgarians advancing from Rustchuk and Turtukai defeated fifteen or sixteen Rumanian battalions which invaded Bulgaria near Rapove, occupying six villages, according to the war office. On the main battle line in Dobrudja the Russian and Rumanian attempts to advance failed.

The Bulgarians completed the destruction of Rumanian forces yesterday, according to a statement issued at the war office. The Rustchuk column met the Rumanians Tuesday, compelling them to retreat toward the Danube and leaving the field covered with dead. Toward evening of the same day the Bulgarians occupied Liohowo and Babow, the Rumanians retreating east in disorder and running into the Turtukai column.

The Power Distribution Board also announced that more men were needed.

The Times and other newspapers recently have been conducting a campaign for the application of conscription to Ireland. It is believed that the factors for this plan, who have been urged by Sir Edward Carson, will be strengthened by the announcement that more men are needed.

## PRIZES FOR THE CANNING CLUB GIRLS

To All Canning Club Girls: We are interested in what records you have made on your one-tenth acre plot. If you have been troubled by drought or rain and storm, do not be discouraged, but send in a record. No matter how small the yield, we want a well kept record. We hope you have made a profit.

The Jacksonville Chamber of Commerce makes the following offer for their fair to be held in December: To the canning club girls who send in the best exhibit of canned fruits, preserves, jellies, vinegars and canned vegetables, \$75.

To the canning club girls who send in the second best exhibit of canned fruits, preserves, jellies, vinegars and canned vegetables, \$25.

To the county sending the best exhibit from not less than ten girls, \$100.

To the county sending the second best exhibit from not less than ten girls, \$25.

Some girl will get that \$75, and it is only the girls who try, who ever win. Now is the time to prepare for this exhibit. We can safely promise to sell all of your products at a reasonable price, if they are of excellent quality.

You know Mrs. Okle Painter Williams' offer of a gold watch to the first prize winner in each county. Mrs. Williams has given fifty-one girls gold watches. No girl who wins one is eligible for a watch the second year. No girl is eligible for the state prize of \$100, who has an irrigation plant on her plot. This college is going to present certificates to those girls who have been club members of good standing for four years. There are not many to receive these certificates this year, but we hope many of you who are club members will continue in the work long enough to receive certificates.

We are happy that more Florida girls are joining every year, and that you are working hard to save the surplus fruits and vegetables, to study home making, and to become helpful daughters. Yours with best wishes, Agnes Ellen Harris, State Home Demonstration Agent.

And to keep in touch with current events as well as what happens in Bellevue, Rev. S. N. Whidden joins the ever growing family of Star readers, and will receive inspiration from the many sided articles that appear in it from time to time. People of all classes and conditions feel the necessity of subscribing to the Star. Those who do not subscribe, borrow their neighbor's paper, and those most vociferous against the Star almost break their necks in hunting up some one to loan them one. It is only a fair proposition that if an article has merit it is worth the price, therefore I am looking for a small sized flood of subscribers among those who read but do not pay.

Woodward Yongue, one of our very energetic chicken fanciers, is demonstrating there is money in White Leghorn chickens. He has a beautiful flock of nearly three hundred, having started his farm more year ago, and hopes to increase the number to one thousand in another year, as he is testing a new incubator that has just been patented and with the practical science he has been studying on the poultry raising he will have more than a side line, as he as first thought. He will plant several acres in Bermuda grass for their runs the coming spring, as it not only furnishes forage for them but is a great protection from insects. "Woodie" is what they call a book farmer in the west. He made a success of corn when there was a state-wide contest. He has a number of pigeons, beautiful flowers and at night is not too tired to practice his music lesson along with his other studies.
